

California OES Weather Threat Briefing

Saturday, February 6, 2021 9:00 AM PST

National Weather Service

Western Region Headquarters
Regional Operations Center
Salt Lake City, UT

WEATHER KEY POINTS 02/06/21 - 02/12/21

Saturday-Friday

- Dry and mild weather continues through the weekend, with some patchy dense fog in the Central Valley, mountain valleys, and along the coastline
- Locally gusty winds are expected at times over the southern California mountains through early next week, but fire weather concerns remain low
 - Wind gusts up to 45 mph are possible across portions of Los Angeles and Ventura counties this morning (Saturday)
- Some light precipitation is possible mid-to-late week, mainly across northern California, but no significant storms are expected through Friday
